

Portable Ozone Generator TROG-601

www.safetyzon.com | info@safetyzon.com

Description

Portable Ozone Generator TROG-601 is a convenient and portable device. It can work on different sterilization and purification treatments. It applies to using both air and water, with the working principle of the tube type-high voltage discharge gap. It can produce O₃ at a rate of 3 g/h. and is equipped with stainless steel. It has good performance and long service life.

Features:

- > It is having with good performance and long life
- > It is equipped with a stainless steel chamber
- > This applies to the use of air and water due to the operating principle of tube-type high voltage discharge paths
- > It has a lightweight and portable device
- > It can generate O₃ ranges
- > It is having with an ozone concentration
- > Intended with a high voltage ionization
- > It is both industry and household type
- > It is an automatic control time type device
- > It is having with a cool wind of Byo

Specifications :

Application	Both can use air and water
O3 range	3g/h
Overall size	500 ×160× 220 mm
Packing Size	550×220×270 mm
Power	220V/ 50HZ

West 110th Street Overland Park KS 66210, USA
