

## **Portable Ozone Generator TROG-603**

[www.safetyzon.com](http://www.safetyzon.com) | [info@safetyzon.com](mailto:info@safetyzon.com)

## Description

Portable Ozone Generator TROG-603 is a practical and portable device. It can be used for various sterilization and cleaning processes. This applies to the use of air and water due to the operating principle of tube-type high voltage discharge paths. It can generate O<sub>3</sub> at a rate of 7g / h. Moreover, it is equipped with stainless steel. It has good performance and long life.

## Features:

- > It is having with good performance and long life
- > It is equipped with a stainless steel chamber
- > This applies to the use of air and water due to the operating principle of tube-type high voltage discharge paths
- > It has a lightweight and portable device
- > It can generate O<sub>3</sub> ranges
- > It is having with an ozone concentration
- > Intended with a high voltage ionization
- > It is both industry and household type
- > It is an automatic control time type device
- > It is having with a cool wind of Byo

Specifications :

|              |                            |
|--------------|----------------------------|
| Application  | Both can use air and water |
| O3 range     | 7 g/h                      |
| Overall size | 500 ×160× 220 mm           |
| Packing Size | 550×220×270 mm             |
| Power        | 220V/ 50HZ                 |
