

Portable Ozone Generator TROG-606

www.safetyzon.com | info@safetyzon.com

Description

Portable Ozone Generator TROG-606 is a practical and portable device. It can be used for various sterilization and cleaning processes. This applies to the use of air and water due to the operating principle of tube-type highvoltage discharge paths. It cangenerate O3 at a rate of 20 g / h. Moreover, it is equipped with stainless steel. It has good performance and long life.

Features:

- > It is having with good performance and long life
- > It is equipped with a stainless steel chamber
- > This applies to the use of air and water due to the operating principle of tube-type high voltage discharge paths
- > It has a lightweight and portable device
- > It cangenerate O3 ranges
- > It is having with an ozone concentration
- > Intended with a high voltage ionization
- > It is both industry and household type
- > It is an automatic control time type device
- > It is having with a cool wind of Byo

Specifications :

Application	Both can use air and water
O3 range	20 g/h
Overall size	500 ×160× 220 mm
Packing Size	550×220×270 mm
Power	220V/ 50HZ

West 110th Street Overland Park KS 66210, USA
